The ROBERTS® Steel Staple Hammer gets the job done faster. Designed for quick, repetitive stapling, it is tough, easy to use, and great to install carpet padding, roofing felt, insulations, canvas framing and upholstery. This staple hammer features a non-slip handle with ridges to position your fingers, giving you a firm, comfortable grip and great balance. It has good reach and easy back-end loading that holds 160 staples. Versatile, it can be used with 3/8" divergent point or chisel point staples (sold separately).
