ROBERTS®

NEW & IMPROVED

10-963

Vinyl Seam Roller

NON-SLIP
Co-molded grip with texture for comfort and to prevent slipping

2" POLISHED STEEL ROLLER
Improved ball bearing design provides smooth rolling for ease of use

ERGONOMIC
Longer, more comfortable handle, with raised thumb stop allows for more seaming force and stability

ROUNDED OUTSIDE EDGE
Prevents marring or scratching flooring or baseboards

ESSENTIAL
For vinyl flooring and wall base installations

Scan here for PRODUCT INFORMATION

The ROBERTS® Vinyl Seam Roller is essential to complete any vinyl flooring installation, and is suitable for wall base installations. The polished steel roller smoothly glides on ball bearings for an even finish. The angled, soft-grip handle is designed for superior grip and better leverage. The 10-963 seam roller is 8" long and weighs 2 lbs.
