Falcon Power 44 Tailblock can be used with most brands of carpet stretchers

Scan here for PRODUCT INFORMATION

Developed with a rugged construction and patent-pending design, the ROBERTS® Falcon™ Power 44 Tailblock is the only tailblock to span a doorway. Engineered with a professional installer in mind, the Falcon Power 44 Tailblock easily adjusts length from 20.50" to 44" by adding two extensions. Internal magnets pull extensions into position, while quick-release pins lock them in place. Dual-edged for convenience, wheel-side down for walls and baseboards; wheel side up for stretching over quarter round. Soft rubber, non-marring surface helps prevent damage to walls and base boards. **Versatile, the ROBERTS Power 44 Tailblock can be used with most brands of carpet stretchers on the market today.**
