NEW & IMPROVED

10-485

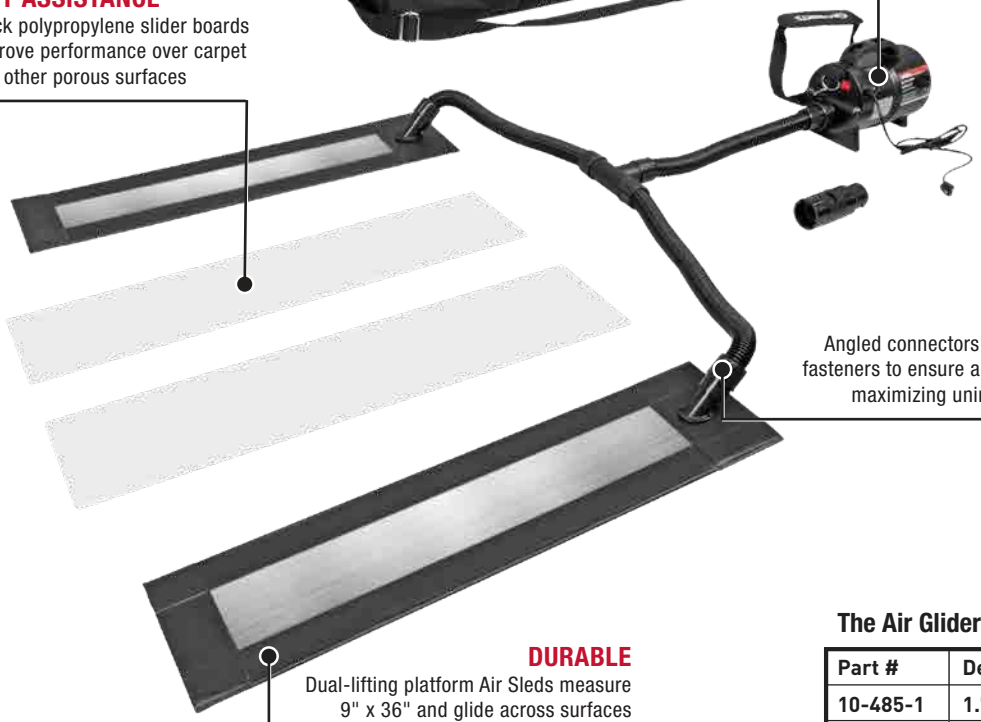

Dual Air Glider with Case

CONVENIENT STORAGE
Includes heavy-duty storage case for easy transport and investment protection

POWERFUL
1.75 HP 120-volt blower uses hovercraft principles to provide necessary lift

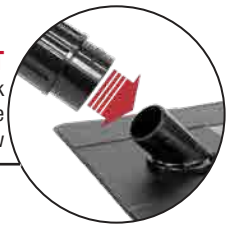

LIFT ASSISTANCE
Thick polypropylene slider boards improve performance over carpet and other porous surfaces

ADJUSTABLE AIR FLOW
Optional adaptor controls air flow to properly inflate platform sleds, adjusting for weight load

SECURE FIT
Angled connectors feature twist-lock fasteners to ensure a secure hold while maximizing uninterrupted air flow

DURABLE
Dual-lifting platform Air Sleds measure 9" x 36" and glide across surfaces without damage to flooring

LOAD CAPACITY
800 POUNDS
Accommodates up to 800 lbs of load capacity

The Air Glider Includes:

Part #	Description	QTY
10-485-1	1.75 HP Motor	1
10-485-2	Air Sled Set	1 (pair)
10-485-3	Hose Assembly	1
10-485-4	Heavy-Duty Storage Bag	1
10-485-5	Polypropylene Board Set	2 (pairs)
10-485-6	Shoulder Strap	1
10-485-7	Optional Air Vent	1

ROBERTS® NEW & IMPROVED Dual Air Glider with Case can lift up to 800 lbs., allowing a single user to be able to move heavy items like appliances, furniture, equipment, and machinery. Built with a powerful 1.75 HP blower and designed to use hovercraft lifting principles, it allows heavy items to smoothly glide across flooring. An optional air vent helps control the air flow depending upon weight load, or reduce the lift in tight spaces. It includes a robust soft-sided case with a stronger carrying strap and soft shoulder pad to make transport easy.
